The Daily Times, commenting on this speech, says: Careful lovesturation here reveals the fact that the lowest were paid to colored laborers in any industry is ninety cents per day, and this rate covers only a few at the South Tredegar Iron-Works. The greater number of colored men at those works receive wages running from \$1 to \$3 per day, with a large number at intermediate rates of a large number at intermediate rates of \$1.25 and \$1.50 per day. These are representative southern industries. What we say of Chattanooga in this regard applies to Birmingham, Knoxville, and other places. The colored boys in the South Tredegar Nail-Works, working as feeders, make from 75 cents to \$1.25 per day, according to the skill and industry displayed in their labor. Some colored men make as high as \$4 per day as pudders and foundry-men in this section. We diers and foundry-men in this section.
